

SEND Information Report 2026/27

Dixons Newall Green

Responsibility: Stephanie Morris

Last updated: Wednesday, 16 September 2026

SEND Information Report

Introduction

At Dixons Newall Green, we believe that the entitlement to a broad, balanced, relevant and adaptive curriculum is a right for all learners. This entitlement should be delivered by trained personnel, committed to maximum inclusion, who are able to provide a happy, sensitive, secure and developmental environment in which all individuals are encouraged and enabled to undertake self-development, self-advocacy, respect for self, respect for others and respect for the environment. Equality of opportunity, thoughtful and effective assessment, family involvement and a variety of teaching and learning styles appropriate to the needs of the individual and the subject matter should be integral to the planning of educational provision for all students. We are committed to ensuring that any student can get the extra support that they need, if and when they need it, without stigma or prejudice. All students are equally valued. High standards of behaviour and moral values are set for all whilst appreciating that not all students will be able to meet them without guidance, support and structure.

Values and culture

The Mountain Rescue department is committed to developing a truly inclusive school by ensuring that all Dixons Newall Green Academy students can climb their mountain to university or a real alternative and live a fulfilling life. We do whatever it takes for as long as it takes to ensure students reach their full potential. We recognise that any student may require the support of the Mountain Rescue department at some point during their school career and that support may be temporary or long term. Support packages are individually tailored with a focus on the Dixons Newall Green Academy's drivers of autonomy, mastery and purpose, and the core values of hard work, integrity, and fairness. We work closely with academic departments, school leadership, outside agencies, families, and the students themselves in order to develop independent and resilient learners who make rapid and sustained progress regardless of starting point, socio-economic background, personal circumstance, special educational need or disability. At Dixons Newall Green Academy all aspects of learning and community have been designed with the needs of all students – including those with additional educational needs, disabilities, or other vulnerabilities – in mind and, as a result, students receive a truly inclusive education and experience with their needs being met through well designed whole school systems. Each student is treated as a unique individual and is subject to the same high expectations, respect, compassion, and flexibility as their peers. True inclusion means equality, and equality in education means an equal quality education and experience for every student. This cannot be achieved through segregated services,

non-specialist and / or unqualified teaching, or acceptance of inferior outcomes for certain individuals or groups. We cater for a broad range of needs and disabilities that includes, but is not limited to, Autism Spectrum Conditions (ASC), Speech, Language and Communication Needs (SLCN), Moderate and Severe Learning Difficulties (MLD / SLD), Specific Learning Difficulties (SpLD) such as dyslexia, Social Emotional and Mental Health Needs (SEMH) including ADHD, ADD and Attachment Disorder, as well as Hearing Impairment (HI), Vision Impairment (VI) and Physical Disabilities (PD). Dixons Newall Green Academy provides a safe, well supervised and highly structured environment in which all students can learn and thrive. Our core values of hard work, integrity, and fairness are at the heart of everything that we do; we give 100% every day, play by the rules and do what we say we are going to do. Exceptionally high expectations for behaviour, the advisory system, and Family Dining, amongst other things, ensure a safe and supportive experience for all students without the need for additionality or difference for vulnerable learners. Mountain Rescue is there for all students when they need it and because they need it. Further information on our values and culture can be found on our website www.dixonsng.com

Teaching and learning

1.24 – High quality teaching that is differentiated and personalised will meet the individual needs of the majority of children and young people. Some children and young people need educational provision that is additional to or different from this. This is special educational provision under Section 21 of the Children and Families Act 2014. Schools and colleges must use their best endeavours to ensure that such provision is made for those who need it. Special educational provision is underpinned by high quality teaching and is compromised by anything less.

SEND Code of Practice 0-25 (DfE / DoH, 2015)

The main way in which every student's learning needs are met is through high quality teaching and a broad, balanced, relevant and differentiated curriculum. There are three learning cycles per academic year, each using the Assess, Plan, Do, Review format to ensure that every child is receiving an education, including differentiation and intervention, which meets their current learning needs. Each cycle also includes liaison with parents / carers and opportunities for students to have their say as well as work on a project autonomously. Parents or carers of any student can request an additional phone or face-to-face conversation with a member of staff at any time or by emailing info@dixonsng.com

Staffing and timetable

To ensure a high-quality learning experience for the most vulnerable learners, the timetable is differentiated to allow a more focussed and tailored learning experience for students who need it. The students are grouped into four mixed ability classes, these groupings are reviewed on a cycle-by-cycle basis. In addition to this, group B3's lessons across some subjects are double staffed where possible with subject specialist qualified teachers to allow for smaller class sizes (by splitting the class), small group and / or 1:1 work as appropriate, without compromising those students' access to high quality teaching. There is a fluid approach to double staffing within academic departments meaning that an additional subject specialist qualified teacher can be provided for group B3 when they would benefit from it and groups 1 to 4 benefit from learning as a whole class group.

Identification of needs

There are a range of ways in which a student may be identified as having additional needs. For many students, this happens during their transition to the academy through liaison with their parents or carers, with their primary (or previous) school, and by receiving information from other professionals including the Local Authority SEND team. For some students, their needs are identified after they start at the academy. This could be based on teacher observation, in-class assessments and book work, or concerns raised by parents or carers or by the student themselves. In these situations, we are able to provide more in-depth assessment provided by the Mountain Rescue team as well as, where relevant, make referrals to other professionals for more specialist assessment and in some cases diagnoses. All referrals are made in collaboration with parents and carers and with the student themselves. All provision is made based on need only and students do not require a diagnosis for additional and different to be put in place.

Students with additional needs currently on roll		Year 7	Year 8	Year 9	Year 10	Year 11
Communication and Interaction (including ASC & SLCN)	EHCP	1	3	6	7	0
	SEN Support	4	4	5	11	0
Cognition and Learning (including MLD, SLD & SpLD)	EHCP	1	3	0	0	0
	SEN Support	7	11	5	4	0
Social, Emotional & Mental Health (including ADHD, ADD & RAD)	EHCP	6	2	2	6	0
	SEN Support	5	23	10	12	0
Physical and Sensory (including HI, VI & physical needs)	EHCP	0	0	0	0	0
	SEN Support	2	2	2	2	0

Additional and different provision

Although we maintain a focus on offering equality and inclusion as part of the main of everything that we do at the academy, we also recognise that some students will need additional and different from their peers in order to learn and thrive. All additional and different provision is made with minimum disruption to the student's entitlement to a broad and balanced curriculum and their right to access all aspects of academy life. All academic additional and different provision is provided by the academic department specialists through employing additional teachers or mentors to facilitate small group and individual work and by factoring additional learning time into the timetable. Provision to support student's socio-emotional and personal development is provided through Mountain Rescue and is bespoke to individual students' needs, drawing on the range of expertise we have within the department and through strong connections with local authority and NHS professional teams.

Assess Plan Do Review

At Dixons Newall Green Academy, the 'Assess, Plan, Do, Review' process follows our whole academy routines for using regular assessment to work supportively and proactively to ensure all students can learn and thrive. There are three cycles of 13 weeks of learning time per academic year. Within each cycle, student progress is assessed and reviewed by week 10 and then staff have one dedicated day of analysing student outcomes and then using that information to plan the remainder of that cycle (mainly intervention) and the following cycle (prevention and provision). For all students, progress is assessed through a combination formal testing, work they have completed in lessons and teacher observation, but for students who have an EHCP (or are in the process of applying for a needs assessment) or have a recent professionals report (for example, from an Educational Psychologist or Speech and Language Therapist) this process is further supported through an Individual Needs Intervention Plan, or INIP. This document breaks their longerterm targets down into medium- and short-term targets along with strategies that can be put in place in the classroom, at break and lunch time, and in other aspects of the academy day. The INIPs are shared at the beginning of each cycle and then all teachers work together to review them after week 10, sharing their feedback with the Mountain Rescue team who update them ready for the following cycle. Parents and carers have regular opportunities to meet with academy staff, both teaching and pastoral, throughout each cycle. There are formal parents' evenings, but parents and carers can also contact the academy at any time to arrange a meeting with key staff for their child at any time they have a concern. Students with an EHCP will also have an Annual Review each year where academy staff, parents or carers, and other professionals can review their outcomes and plan for the following 12 months. The whole academy Assess, Plan, Do, Review process, along with their INIPs and any other professionals reports that have been written over the course of that year, will feed into the Annual Review and inform the student's long-term targets. The academy, parents or carers, or professionals may also request an Interim Review at any point if there has been significant change or there is any concern or can simply request to meet less formally if they wish to discuss any aspect of the student's needs or provision.

Key Documents

INIS	Individual Needs Inclusion Strategies Key strategies by need type to support all teachers to manage their classrooms and lessons as inclusively as possible
INIP	Individual Needs Intervention Plan A document similar to the more common IEP (individual Education Plan) that breaks long term outcomes down into shorter term targets and provides a mechanism for sharing and reviewing with teachers.
INIM	Individual Needs Information for Medical Needs One page summary care plans to support teachers of students with medical needs to plan safely and preventatively, recognising early signs of a medical emergency, and to respond swiftly and appropriately.

Transition

A successful transition from primary school is key to the success and wellbeing of any student and so a rigorous and supportive transition programme is in place for all admissions. Members of the Senior Leadership Team will visit the primary school to collaborate with professionals to gain greater understanding about the pupils coming to us from Year 6 to ensure their welfare once they start. Student information sheets are completed by the primary schools and uploaded onto the Manchester City Council 'Six into Seven' portal at the beginning of the summer term prior to the student's transition. There is one transition day for all students at the beginning of July each year and additional transition visits are arranged for vulnerable students. Liaison with primary, outside agencies and parent/carers is arranged for any student with additional needs. For students with an Education, Health and Care Plan the SENDCo would attend their year 6 transition Annual Review in order to ensure parent / carers were fully informed of provision that can be made, to receive the most up to date information about the child's individual needs and that the provision laid out in Annual Review document could be made available in preparation for their arrival. Senior members of staff interview every student at transition from KS3 to KS4 in order to ensure a high quality and appropriate KS4 pathway for every child. A meeting with an independent career's advisor is also arranged for vulnerable learners and any other student who requests it and there are dedicated options evenings and

parents' evenings in order to ensure both students and their parent/carers are fully informed. For students with an Education, Health and Care Plan the Annual Review immediately prior to their taking KS4 options would be a transition review and ensure that the best provision was put in place for the students KS4 pathway.

Collaborative working with families and supporting agencies

One of our key drivers is autonomy and we support and empower our students to increasingly direct their own lives, including their education, by giving them the tools to be successful now and in the future. Student voice activities are conducted throughout the year and students are encouraged and supported to share their opinions. Parent / carer contact is incorporated into each of the three learning cycles, and this could be in the form of a report, a phone-call home or a parents evening. Parents can contact us and arrange a meeting or phone-call at any time if they have a concern or would like an update on their child's provision. For students with an Education, Health and Care Plan the SENDCo will arrange a yearly review of their provision (the Annual Review) for parents / carers, key school staff and any outside agencies. Interim reviews can be called at any time if the needs or provision change. We work closely with the LA SEND team and specialist teachers to ensure we have the appropriate equipment and facilities to meet the needs of our students with special educational needs. We seek appropriate expert advice when required and always work on the basis of ensuring individualised and small group provision is of equitable quality to the main offer and built into academy life. Where a piece of equipment or facility is unique to a specific student, the provision will be identified, implemented and maintained through the EHCP and Annual Review processes.

Successes and next steps 2025/26

A success for the last academic year was appointing 2 new Senior Mountain Rescue Mentors. Additionally, as the school welcomes a new cohort and expands, an additional Mentor has been appointed to ensure there is sufficient capacity within the team. A contextual issue facing schools in Manchester, is the shortage of special school places, as well as places in resource provisions. As a result of this, the academy is facing a growing number of high need students. The academy will focus on collaboratively working with the Local Authority, parents/carers and specialist settings to better support the students directly affected by this issue.

Feedback and complaints

Please let us know at the first available opportunity. Providing a high quality education is of paramount importance and we believe that a close working relationship between the Academy, student and parent/carers is crucial in achieving this. We actively seek to collaborate with parent / carers on a cycle-by-cycle basis but understand that things can change much more quickly than this. We are always happy to arrange a meeting or phone-call in order to discuss a student's provision and how best to meet their needs. Any complaints to the Academy would follow the standard complaints procedure for the Dixons Academies Trust, details of which can be found by following the link below: https://www.dixonsat.com/uploads/files/About/Policies/120445_Complaints_Procedure-2.pdf Support in the resolving of disagreements and complaints regarding provision for students with additional needs is also provided by the local authority.

Frequently Asked Questions

How are the different types of additional need and disability provided for at Dixons Newall Green?

The needs of all students at the Dixons Newall Green Academy are met through well designed whole school systems and high-quality teaching. Flexibility, timely intervention and targeted, data-led differentiation are key to the success of all students, and we understand that some children will need additional and / or different to achieve equal quality of education and experience. Where additional and / or differentiation is required, we focus on ensuring that it is of equitable quality to the main offer and that each student's needs are considered on an individual and holistic basis. All provision is reviewed on a regular basis using the graduated approach (Assess, Plan, Do, Review) in line with our whole academy learning cycles and assessment process. Further information can be found in our contribution to the Local Authority's SEND Local Offer

How is provision for students with additional needs evaluated for effectiveness?

Progress and attainment for all students is assessed at the end of cycle 3 as part of our whole academy cycle of teaching and assessment and provision will be reviewed, and intervention put in place for any student who has not made expected progress in that period of time. This enables us to review the overall provision of each individual student and adjust accordingly. All interventions have their own built in progress assessment mechanism that allows us to ensure that each one is having impact and is of value to the individual learner.

How are students with additional needs and their parents / carers consulted in order to involve them in their education?

One of our key drivers is autonomy and we support and empower our students to increasingly direct their own lives, including their education, by giving them the tools to be successful now and in the future. Student voice activities are conducted throughout the year and students are encouraged and supported to share their opinions. Parent / carer contact is incorporated into each of the three

learning cycles, and this could be in the form of a report, a phone-call home or a parents evening. Parents can contact us and arrange a meeting or phone-call at any time if they have a concern or would like an update on their child's provision. For students with an Education, Health and Care Plan the SENDCo will arrange a yearly review of their provision (the Annual Review) for parents / carers, key school staff and any outside agencies. Interim reviews can be called at any time if the needs or provision change.

How are specialist equipment and facilities to support students with special educational needs secured?

We work closely with the LA SEND team and specialist teachers to ensure we have the appropriate equipment and facilities to meet the needs of our students with special educational needs. We seek appropriate expert advice when required and always work on the basis of ensuring individualised and small group provision is of equitable quality to the main offer and built into academy life. Where a piece of equipment or facility is unique to a specific student, the provision will be identified, implemented and maintained through the EHCP and Annual Review processes.

How are staff supported to meet the needs of students with additional needs?

Focused staff training and support is crucial to ensuring that the needs of all students are met inclusively, and all students receive an equal quality learning experience. All staff have access to a range of documents designed to inclusively support students with individual needs and staff training and CPD is incorporated into staff induction, peer coaching, and briefings. In addition to this, the SENDCo and Mountain Rescue are available to support with individuals and classes at any time. If a student requires specialist support or intervention that is beyond the current expertise of our own staff, outside agency help will be sought. This could take the form of staff training or regularly scheduled input from outside specialists.

What additional expertise and training do staff have in order to support students with additional needs?

The specific needs of our students are discussed with all staff in induction and throughout the academic year to ensure that teachers are up to date and informed about the students they teach. We work closely with parents / carers, other professionals, and with the students themselves to ensure that the information is accurate, up to date, and supportive. The Mountain Rescue team access additional training to support the needs of students with SEND through their key worker roles, which are reviewed annually to ensure that the needs of the current cohort are being prioritised at all times. In addition to this, we work closely with expert from external agencies to ensure all needs are being met for all our students.

How does the academy work collaboratively with the local authority and other outside agencies?

At Dixons Newall Green Academy, the socio-emotional developmental needs of the students are supported through a range of systems that permeate all aspects of academy life. The advisory system (small pastoral groupings for registration), Robust Reading (daily reading), student leadership opportunities, family dining, the values driven culture, and our Behaviour for Learning policy are just some examples of how we support student wellbeing. Mountain Rescue provides a drop-in service that any student can use to access support and guidance from our mentor team or one of our specialist staff. All students receive weekly Personal Development Studies (PDS – sometimes known as PSHE) and more information about this can be found on our website at www.dixonsng.com

Further information can be found in the Local Authority's SEND Local Offer ([LINK](#))

How is the socio-emotional development of the students supported? How is bullying prevented?

At Dixons Newall Green Academy, the socio-emotional developmental needs of the students are supported through a range of systems that permeate all aspects of academy life. The advisory system (small pastoral groupings for registration), Robust Reading (daily reading), student leadership opportunities, family dining, the values driven culture, and our Behaviour for Learning policy are just some examples of how we support student wellbeing. Mountain Rescue provides a drop-in service that any student can use to access support and guidance from our mentor team or one of our specialist staff. All students receive weekly Personal Development Studies (PDS – sometimes known as PSHE) and more information about this can be found on our website at www.dixonsng.com

How does the academy ensure that students with additional needs or other vulnerabilities are treated fairly at the admissions stage?

Please refer directly to our admissions policy for a detailed explanation of how we achieve this: www.dixonsng.com

What facilities are provided to support the needs of students with physical disabilities?

Dixons Newall Green Academy has level, ramp or lift access to all areas of the interior and exterior of the building but also understands that access is an ongoing pursuit. Continued improvements to access and safety for our students, staff, and visitors with physical disabilities is informed by student, parent and staff voice, as well as advice from the relevant Local Authority teams. All staff receive annual training on how to support students with physical disabilities in an emergency evacuation and anyone with individual evacuation needs will have a Personal Emergency Evacuation Plan (PEEP) in place. Full details of our Accessibility Policy can be found on our website at www.dixonsng.com

How does the academy adapt the curriculum and learning environment for students with additional needs?

The needs of all students are met through high quality teaching, regular and varied assessment, time devoted to planning and preparation of intervention and provision, and building positive relationships with students, families and other professionals. When

any student needs additional and / or different in order to thrive and make progress in their learning, we focus on ensuring that their needs are met equitably and, wherever possible, as part of the main offer of the academy. More detail can be found in the 'teaching and learning' and 'staffing and timetable' sections of this document. Further information can be found in our academy Accessibility Plan (www.dixonsng.com)

Further information can be found in our academy Accessibility Plan ([LINK](#))

How does the academy ensure that it is meeting the needs of students with additional needs who are also in local authority care (CLA)?

The needs of all students, including those with additional needs and/or who are looked after by the local authority, are met through well designed whole school systems and high-quality teaching. The Mountain Rescue department is there to meet the individual needs of all students when they need it and because they need it, including those with additional needs and / or who are looked after by the local authority. Staff within this department have the expertise, experience and contacts needed to ensure this is done to a high standard. All provision is based on the principles of true inclusion, equal quality of education and experience for all students, regardless of starting point, socio-economic background, personal circumstance, special educational need or disability. The DSL or a representative of the Mountain Rescue department attends the regular LAC and PEP (Personal Education Plan) of any student who is identified as LAC and is then responsible for ensuring the implementation of any provision outlined in the plan with colleagues.

Where can I find further information and support services if I'm a parents / carers of a child with additional needs?

Parents and carers can contact the academy at any time to discuss their child's needs and provision. A detailed programme of what is available in Manchester can be found in Manchester's Local Offer.

SENDIASS is an organisation that can support parents and carers of children and young people aged 0-25 with SEND to work together with schools and the local authority to ensure that all parties have a good understanding of what support the child needs and to ensure that it is put in place. They can be contacted on 01274 513300 or at <https://www.iasmanchester.org/>
